PROJECTS

Online Education Website
- Developed a responsive and user-friendly online education platform using HTML, CSS, and JavaScript.
- Developed UI
- Implemented features for teachers and courses, also add review section enhancing the online learning experience.

Weather App
- Developed a weather app using HTML, CSS, and a weather API.
- The app allows users to view current weather conditions.
- Used JavaScript to interact with the weather API.

Personal Portfolio
- Designed and developed a personal portfolio to showcase my skills and projects.
- Utilized modern web technologies like HTML, CSS, and JavaScript.
- Focused on creating a clean and professional layout to highlight my work effectively.
